

LAB PROJECT 1000-03

Library Research

NAME: _____

DATE: _____

The purpose of Lab Project 1000-03 is to use the library facilities to complete research.

Part 1

The first part of this project is a class visit to the Macomb Community College Library. If you miss this class visit, you will have to bring verification of a personal session with a librarian. At the library, you will learn how to find books and articles in periodicals with the use of the computer cataloging systems. You will also learn how to obtain a hard copy of an article on the computer periodical retrieval system.

Part 2

Obtain a library card. If you do not already have a MCC Library Card, you may get a card, at the front desk, before or after the presentation. You will have to submit a copy of the signed back of the card. You may also present the card to the instructor for verification when you turn in this sheet.

Card verified: _____ (Instructor)

Part 3

Once the lecture session is completed you are to find and turn in a **magazine** article on **one** of the following subjects:

Engineering Ethics
Engineering Disasters
Engineering Consultants
Reverse Engineering
MathCad
Unigraphics
AutoCad

The article may be from a hard copy magazine or from the computer retrieval system.

(Continued on back of this sheet)

Part 4

In addition, you are to find a book title on one of the following subjects:

Engineering Ethics
The Future of Engineering
Reverse Engineering
Rapid Prototyping
Computer Aided Design

List the available book information:

Title: _____

Author: _____

Publisher: _____

Publishing or Copyright Date: _____

Number of Pages: _____

Number of Illustrations: _____

ISBN Number: _____

Call Number: _____

Location - Name of Library: _____

Part 5

Staple a copy of the magazine article to this sheet.
